~/summary

vim ./summary

One year of web development experience using LAMP and related technologies

Personal *nix server administration and configuration

Able to contribute to web page design and create mockups in all Photoshop, HTML and CSS

General experience with OOP languages from formal education such as C++, C# and Java

Vim/Terminal friendly for all languages and an average typing speed of more than 120wpm

Reliable with minimal supervision and strive to optimize productivity by learning new tools

~/work

vim ./rdm

Rogers Digital Media

May 2013 - Current

Web Developer

Completed assigned tasks from each sprint for sportsnet.ca, a Wordpress based site

Learned the basics of Ruby on Rails to help with the development of the back end stats API

Utilized Vim as the default text editor to increase workflow productivity

Continued to build upon previous web development experience while gaining more advanced knowledge such as understanding MVC

vim ./eo

Ethical Ocean Inc.

Aug 2011 - Mar 2012

Web Developer

Assigned various weekly development projects and bug fixes on the company's E-commerce website (Drupal & Ubercart)

Utilized git-svn as the version control

Transitioned the existing synchronous Google Analytics API to asynchronous and added new API calls throughout the whole site

Overhauled Mailchimp to include new email triggers and user mailing list profiles

Integrated HTML/CSS packages and PSDs with the site using web technologies such as jQuery, AJAX, and additional APIs

Transitioned all transactional emails from Drupal Mail to Amazon SES

Designed and implemented an affiliate system for vendors according to specifications

Fixed bugs ranging from backend sales issues to CSS/JavaScript display errors

Tested for CSS/JS compatibility issues for browsers and email clients

vim ./moh

Ontario Ministry of Health and Long-term Care

Jan 2011- May 2011

Web Developer

Assigned development tasks on a Drupal website which managed business related training registration.

Cross-referenced the website with the Government of Ontario Public Web Standard and fixed existing display issues

Implemented development requests from management which involved the usage of the Drupal API and standard web technologies

Setup and managed the LAMP stack on a VPS for development purposes

Managed all of the helpdesk related emails and provided support if possible

Gained a fundamental understanding of standard web technologies

~/education

vim ./moh

Candidate for Bachelor of Applied Science - Computer Engineering

Sept 2010 - Current

University of Waterloo

Ontario Secondary School Diploma

Sept 2006 - Jun 2010

Stephen Leacock Collegiate Institute
